SATURDAY, Aug. 19. As it appeared probable to-day that the temporary future of the stock market would be determined by the result, now doubtless near at hand, of the peace conference at Portsmouth, and as the outcome thereof was thought to be more a matter of uncertainty than had been the case at any previous time, speculators and others having interests in the market were inclined to-day not to extend their commitments and the market was therefore, in the early part of the session, dull and heavy. There was a continuation of the selling movement which first became prominent on Thursday, and the liquidation, though relatively feeble, brought about in the first hour of business the lowest prices yet made on the reaction. Another cause for hesitancy in financial ventures was, of course, more or less anxiety regarding the weekly bank statement, concerning which discouraging views were generally entertained in view of yesterday's estimates of a loss in cash of between \$6,000,000 and \$8,000,000. But the bank statement, which appeared a little before the usual time, did not bear out these pessimistic calculations. The loss in cash was less than half that which had been reckoned upon, and while a fair sized increase in the loans was shown, the surplus reserves were diminished by only 88,491,125, leaving the existing surplus standing at a considerably higher figure than had been anticipated. After the publication of the bank statement the market turned stronger, though with no great increase of activity, and prices at the close generally showed net advances for the day. The one movement in any stock or particular group of stocks during the comment was a further rise in the Wisconein Central common and preferred shares. The advance here has been going on for several days, and the idea has gained ground that the control of the Wisconsin Central Railway is passing, it may be, to the Northern Pacific Railway Company. The London market was closed to-day, and while there was the usual small Saturday's amount of business doing on the Continental bourses, the tone there remained cheerful. Our own market presented at the close more or less of a sold out appearance and signs of the growth of a short

Discussion in Wall Street this morning regarding the peace conference naturally occupied itself with what appeared to be the practical intervention in the conference by President Roosevelt. Concerning this two atiguries were made, one that it indicated that the Governments of our own and doubtless of other countries were exerting all possible influences toward a conclusion of peace and that determined efforts of this kind could hardly fail, and the other that the negotiations of the commissioners themselves had obviously reached an impasse. There was plainly a disposition in financial circles at the close of the week to take both a less optimistic and a less pessimistic view of certain phases of the Russo-Japanese affair than has hitherto commonly prevailed. There was more consideration on the one hand of the fact that the renewal of the war in the East really meant no more to this country than the waging of the contest has meant during the last eighteen months, while on the other hand thought was taken as to the effect upon the money market of borrowing for the account of both Russia and Japan in case peace was declared. Taken all in all, however, the opinion of the best informed financial interests still is at the moment not only that peace will be declared, but that the event will prove a stimulus to security prices everywhere, and that whatever strain the money markets are called to undergo thereby will be so prolonged, apportioned and otherwise managed by the great bankers that its effect will be little felt. The immense quantity of money in the world and the state of preparation for the event that European bourse have so long assumed clearly make this atter of less importance than it has o similar occasions in financial history.

As the week ends there is nothing that slouds the country's magnificent business prospect, and the detailed reports of the nercial agencies covering the period are calculated to inspire enthusiasm regarding the state of affairs. Trade, it is said, is steadily gathering force, the whole country feeling the thrill of the practical certainty that enormous grops will be gathered. Even in the yellow fever districts retail trade has been little affected, owing perhaps to the fact that the percentage of deaths from the disease has been less than in previous epidemics and that the lisease itself spreads much more slowly then formerly. The movement of merchandise on the railways is already such as almost to fully employ railway facilities, and railway earnings go on enlarging. The Government's statement of our exports and imports for July, published on Wednesday, proves that our foreign trade continues to expand. Exports for the month were \$107,984,424, and while the value of imports also increased the excess of exports over imports was still \$24,077,710. Bank clear-ings are proceeding at the pace of increase that they have long maintained, and while higher rates for the use of money are ex-pected in Wall Street as the result of the crop moving drain, the price of time funds shows that no rates sufficient to check business or well grounded speculative operations are deemed possible.

The state of the s	MDE118 010 1175
THE OUTSIDE MARKET.	Lincoln 1 500 1700 You
Prices of outside securities were mildly irregular to-day, none of the changes recorded exceeding fractional limits, and the trading	LATEST QUOTATIO
displayed no more animation than is usually	Albany & Susquehanna
the case during the two hours of Saturday business, the entire activity of the market	Albany & Vermont
converging upon about three issues. The	Allegheny & Western
opening was firmer than might have been	Augusta & Savannah
expected following yesterday's weakness, but	Bleecker St F F
after the first few minutes a sagging ten- dency developed. This, in turn, was checked	Boston & Albany
by the appearance of the weekly bank state-	Boston & Albany
ment, which was the signal for a new buying	Boston & N Y Air Line pf Boston & Previdence
impulse, and in the course of the resultant	Broadway & Seventh Ave
rally some of the losses previously sustained	Brooklyn City
were recovered. The market closed with a fair division of small advances and declines.	Catawissa 1st pf
The dealings in British Columbia Copper	Central Park N & E River
showed no relaxation from their large volume	Chicago & E Ill ctf com Chicago & E Ill pf
of the last few days and the price of the stock	Cleveland & Pittsburg
made a new high record for the present move- ment. Northern Securities and Chicago Sub-	Columbus & Xenia
way both suffered slight recessions, while in	Concord & Montreal
the bond department Japanese 4%s displayed	Connecticut River
marked firmness. The transactions in the market to-day	Dayton & Michigan pf
were as follows:	Delaware & Bound Brook Detroit, Hillsdale & Swn

preaks to effect purchases, as we think if such operations are judiciously made and held for a time there will be more profit in them than short sales under the existing conditions. Cotton at
sales under the existing conditions. Cotton at
10 cents per pound cannot be considered dear, with a crop prospect at present indicating a yield of not more than 10,000,000 bales. It is true this could be increased probably hair a million bales providing the weather conditions during the month
of not more than 10,000,000 bales. It is true this
could be increased probably half a million bales
of not more than 10,000,000 bales. It is true this could be increased probably haif a million bales providing the weather conditions during the month of September should prove sufficiently favorable to develop renewed growth for a good top crop, but it must be remembered in this connection that the season is late, and the condition of the plants
of September should prove sufficiently favorable
to develop renewed growth for a good top crop,
but it must be remembered in this connection that
the season is late, and the condition of the plants
is so low the weather conditions would have to be exceptionally fine and the average date of killing frosts much later than usual to enhance such a
frosts much later than usual to enhance such &
prospect. The principal bear argument against
the market at present is that the crop damage
frosts much later than usual to enhance such a prospect. The principal bear argument against the market at present is that the crop damage has been and is still being greatly exaggerated, and that spinners the world over have already secured sufficient supplies from last season's crop to last them throughout the fall and winter, and that they are therefore in a position to maintain an indifferent stillude as recards laying in their
and that spinners the world over have already
secured sufficient supplies from last season's crop
to last them throughout the fall and winter, and
that they are therefore in a position to maintain
supplies for the coming year, and also that the
surplus carried over in the South from last year's bumper crop will be sufficient to offset the deficiency
in this year's growth. These are all simple enough
arguments in their way, and will do for the present
market considerations Should it however
develop later on, as we believe it will, that the
develop later on, as we believe it will, that the precarious condition of the crop has not been exaggerated as much as the foreigners believe, they

Wheat advanced a fraction to day, owing mainly to covering of shorts and light offerings. The cables were better than expected and the news in reward to the foreign crop situation was rather bullish. The Northwestern markets, moreover, were firmer and Minneapolis was buying to some extent at Chicago. The world's shipments for the week were estimated at only 7,200,000 bush, and there were reports of a better export inquiry at the West. In the main, however, a demand to cover was the cause of the improvement. The weather in the Northwest was favorable and the crop reports were bearish. Stocks at Kansas City increased 207,000 bush, against a decrease of 26,000 bush. last week. Liverpool advanced 4d. and Paris 5to 10 centimes: Berlin declined 4g mk, and Budapest 14 kr. Foreign houses bought futures, but only on a small scale. Corn and oats were dull and featureless, with prices firm in sympathy with wheat. Crop reports were favorable. Illinois reports indicate the largest corn crop on record in that State.

BANKERS AND BROKERS. I. FRANK HOWELL BANKER AND BROKER BROADWAY NEW YORK

MEXICAN CENTRAL SYNDICATE. Preminent Banking House to Take 80, 000,000 of 5 Per Cent. Notes.

A syndicate has been formed by Landenburg, Thalmann and Co., including Blair & Co. and other bankers, to purchase & Co. and other bankers, to purchase \$6,000,000 of an issue of \$10,000,000 of 5 per cent. notes of the Mexican Central Railroad. These notes are being sold to finance the purchase of new properties and improvements, including the changing of all equipment from coal to oil burning. As already told in THE SUN, about 1,000 miles will be added to the road within the next two years. Four important lines have been purchased or are under construction.

BANK STATEMENT.

Declines in Cash and Surplus Reserve. While the exhibit made by the weekly bank statement was perhaps better than forecasts published on Friday had led the financial community to expect it was not an especially encouraging document. A cash loss of only \$3,018,100, as against preliminary estimates of about \$8,000,000, caused favorable comment, but the \$6,210,000 loan expansion was not much liked. The reduction of \$3,491,125 in the surplus brings that item down to \$9,355,675, which makes a rather strik-ing comparison with the \$58,613,075 shown a

year ago.

The weekly statement of averages of the
Associated Banks of the City of New York
compares as follows with that of last week
and that of the corresponding week one year This week. Last week. 1904. Loans. \$1,146,101,500 \$1,159,891,400 \$1,099,174,400

A petition in bankruptcy has been filed against Nathaniel Levy, individually and as sole surviving partner of the firm of S. Herzig against Nathaniel Levy, individually and as sole surviving partner of the firm of S. Herzig & Co., manufacturers of petticoats at \$74 Broadway. It was alleged that Mr. Levy admitted in writing inability to pay the debts of the firm and consented to an immediate adjudication.

A petition in bankruptcy has been filed against Abraham and Isadore J. Fellerman, who compose the firm of A. Fellerman & Son, manufacturers of cloaks and suits at 7 East Seventeenth street.

Deputy Sheriff Porges has received an execution against William W. Philips & Co., produce commission merchants of los Murray street, for \$452, in favor of Elizabeth M. and Lucille M. Stevens for rent. When he went to the place to make a levy he found only a few desks and chairs and an empty salt with the door open. Mr. Philips was in burnness there for several years, and formed a corporation as William W. Philips & Co. on Ja 1, 17, 1905, with a capital stock of \$50.000 to trade in Cuban and Porto Rican products
